

AI Declaration

Google Gemini were used in this assessment.

We acknowledged using AI tools as a learning, discussion and brainstorming aid while completing Task 1, Task 2 and Task 3 of this assignment. The AI was used only to provide general ideas, summarising assessment specifications, comparing suitable topology, giving idea, and provide feedback on our chosen topologies, improving presentation slide quality, and suggesting possible approaches when we were stuck in the progress. The links are attached below.
